

TEAM OCEANIA

International Cybersecurity Challenge

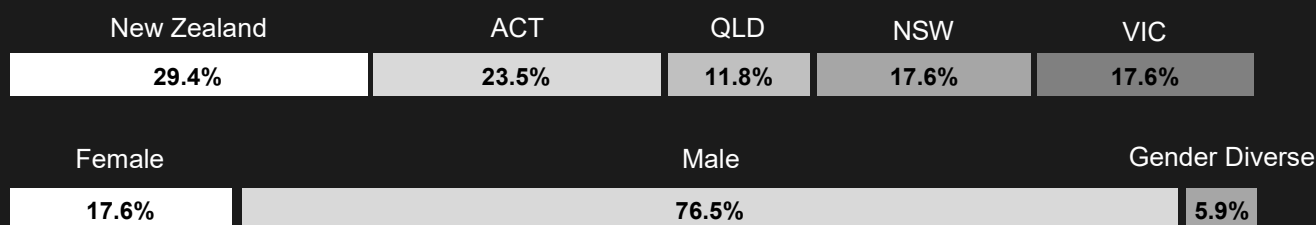

11-14 November 2025 | Tokyo, Japan

SPONSORSHIP PROSPECTUS

About The Team

Team Oceania is a team of 17 cybersecurity students and professionals from across Australia and New Zealand. The team represents the Oceania region on the global stage by competing in cyber competitions at the highest level, with the pinnacle event being the International Cybersecurity Challenge (ICC). Team Oceania was established in 2022 and participants are selected annually to maintain the highest degree of talent and diversity. Team Oceania is seeking financial support to compete in the 2025 ICC event in Tokyo this November.

The International Cyber Security Challenge is the first global Capture the Flag (CTF) event designed to raise awareness, upskill, and test cybersecurity talent on the international stage. The challenge was initially created by the European Union Agency for Cybersecurity (ENISA) and is organised annually by the ICC Steering Committee, comprising of representatives from each competing region. The event attracts cybersecurity organisations and talent from across the globe and is hailed as the “World Cyber Cup”. The challenge tests skills across areas of cybersecurity including cryptography, web exploitation, binary exploitation, reverse engineering, digital forensics, intrusion detection, networking, and automation.

Team Oceania has an excellent track record in previous ICC events including 2nd and 3rd place in 2023 and 2024 respectively. To build on this success, The fourth ICC event will see teams from Oceania, USA, Europe, Asia, Latin America, Africa, ASEAN, and Canada compete in Tokyo in November 2025.

Industry Support

Team Oceania and its success is hugely dependent on support from the cyber industry. The nature of the event presents a unique opportunity for organisations to both support the growth of the cybersecurity industry, and gain excellent international brand exposure through sponsorship of the team. Your sponsorship directly supports the development of the future of national security and the cybersecurity workforce, and establishes connections for talent acquisition and continued partnership. Team Oceania is sending a delegation of 21 people (17 participants and four staff) to Tokyo to compete in ICC 2025 at an estimated cost of \$1800 AUD each, including return airfares and accommodation. With secondary expenses such as team shirts, banners, and equipment, the total cost for Team Oceania to attend ICC 2025 is estimated to be \$40,000 AUD. Team Oceania is appealing for industry support to help get the team to Tokyo and to contribute to the growth of cybersecurity talent.

Sponsorship Tiers

Benefits	Silver (\$2,500)	Gold (\$5,000)	Platinum (\$10,000)	Diamond (\$20,00)
